## ROBUST STRUCTURE. NATURAL RUGGED LOOK.

Oakland is a new line of sheds from Keter, made of a unique resin compound that gives a multi-shade wood look and authentic weathered feel. Engineered with thick double-wall panels, robust roof and steel reinforcements, Oakland stands up to the elements — up to a 20 PSF (100kg/sqm) snow load.

Assembly is made easy thanks to tongue and groove structure. A durable maintenance-free shed like other resin sheds, Oakland is the only resin shed with walls that can be painted to match your own landscape.
